On Mobile Phone you can record Phone call of any person that is the most threatning facility...because 1 Year ago one boy recorded the Call of a Girl...for the purpose of black mailing but that girl was un aware of it...but it is the matter of fact girl do not took this as a serious point...because she refuses to acknowledge that person...even she told him whatever you want to do ,do it she do not care about any of his silly policy

But honestly every one should be aware of the choice of words when talking to someone on phone call....the century in which we are living, is not based on trust....
