---

It's very burning issue to talk on suicide bombing attacks, According to our religion Islam everyone knows that it's not allowed and the person whom done this, will face the highest punishment from Allah Almighty. The Question is that, why people are so much ignorant or un-aware about the rules of Islam which are very clearly tolds to us. Why they ruined their lives? Will they not answerable towards what they are doing?? No one there to awak them??
